Collaborate with UNHCR partnered Educate-A-Child (EAC) program.

1. EAC seeks to provide quality primary education to refugee children.
2. Both the availability and quality of materials are barriers to quality education.
3. No incentive for families to send children to school, for children to attend regularly, or for children to persist with education
4. They may be unavailable due to:
 - Lack of financial resources to publish and transport them
 - Lack of human resources to develop them and/or make them appropriate
 - Geographical barriers that make delivery untimely or impossible.
